FALL 1962—SPRING 1963

VIRGINIA'S FINEST
NURSERY

August 15, 1962

FOREWORD

Over fifty new varieties have been added to our catalogue this year. Many of these new varieties are unusual items which are generally unobtainable at most wholesale nurseries. We are proud of this wide assortment, good selection of sizes, and the excellent quality of all varieties listed.

In addition to the difficult task of producing a wide variety list of quality plants, it is also most important that a prompt and efficient delivery service be maintained to get the material to you *when you need it*. During the fall and spring planting seasons we maintain daily delivery schedules to the Washington and Baltimore metropolitan areas, as well as fast overnight trailer delivery to points as far north as Boston.

We suggest that you, as many others are doing, purchase all your ornamental planting requirements from Virginia's Finest Nursery. We know our quality is tops, our digging and handling is done with painstaking care, and our delivery service, even on the smallest order, is prompt and efficient. We respectfully invite you to send us your order. We know we can please you!

Carl F. Flemer, Jr.

CARL F. FLEMER, JR.

Heavily branched Abelia grandiflora in good supply this year.

A

Unit Price in Quantities	1-9	10-24	25-more

ABELIA Edward Goucher—5' (Zone 7) **Pink Abelia**

Originated by the late Edward Goucher of the U. S. Dept. of Agriculture, Glenn Dale, Maryland. Large lavender-pink blossoms, blooms from May until October not quite as evergreen as A. Grandiflora but is more striking throughout the blooming period. Its low, compact spreading habit of growth makes it very desirable as a foundation plant or low hedge. An excellent salesyard item while still in bloom in the early fall.

12 to 15 in. B&B	2.20	2.00	1.85
15 to 18 in. B&B	2.50	2.25	2.10
18 to 24 in. B&B	3.00	2.75	2.50
24 to 30 in. B&B	3.60	3.30	3.00
30 to 36 in. B&B	4.60	4.15	3.70

ABELIA grandiflora—8' (Zone 6) **Glossy Abelia**

A hybrid which is considered the most hardy of the Abelia family. Light pink bell shaped flowers from June through September. Foliage glossy green throughout summer with bronze to purple winter coloring. Easily transplanted.

12 to 15 in. B&B	1.90	1.70	1.50
15 to 18 in. B&B	2.20	2.00	1.75
18 to 24 in. B&B	2.50	2.25	2.10
24 to 30 in. B&B	3.00	2.75	2.50
30 to 36 in. B&B	4.00	3.70	3.35
3 to 4 ft. B&B	4.70	4.30	3.90

	Unit Price in Quantities 1-9	10-24	25-more

ABELIA grandiflora prostrata—2′ (Zone 6) **Prostrate Glossy Abelia**

Similar to A. grandiflora except branches are low and spreading. Ideal for low hedge, ground cover, or foundation planting.

12 to 15 in. B&B	2.50	2.30	2.10
15 to 18 in. B&B	3.00	2.75	----

ACER palmatum atropurpureum—20′ (Zone 6) **Japanese Red Maple**

A dwarf, slow growing tree which is as popular in its native Japan as it is in this country. Dense foliage, beautiful purplish-red leaf coloring. Useful as specimen plant. Always a popular salesyard item.

12 to 15 in. B&B	3.60	3.30	2.90
15 to 18 in. B&B	4.70	4.30	3.90
18 to 24 in. B&B	6.25	5.70	5.20
2 to 2½ ft. B&B	7.80	7.15	----
2½ to 3 ft. B&B	11.00	10.00	----
3 to 3½ ft. B&B	14.30	13.00	----

ACER platanoides—60′ (Zone 4) **Norway Maple**

A native of Europe which has become one of America's most popular shade trees. Round, tight growth habit makes dense shade. Dark green foliage, yellow fall coloring. Suitable as street, park or lawn tree and excellent as a quick screen.

6 to 8 ft.	3.90	3.60	----
8 to 10 ft.	5.45	5.00	----
9 to 11 ft. 1¼ to 1½ in.	7.80	7.15	----
10 to 12 ft. 1½ to 1¾ in.	10.00	9.10	----

ACER rubrum—80′ (Zone 3) **Red or Swamp Maple**

Flowers red, very small but profuse. Round head, dense foliage. Brilliant red autumn coloring. Fast growing. Because it blooms in early April, it is one of the first evidences of spring.

5 to 6 ft. B&B	7.45	6.80	6.20
6 to 8 ft. B&B	10.15	9.30	8.45
8 to 10 ft. B&B 1 to 1¼ in.	14.15	12.85	11.70
9 to 11 ft. B&B 1¼ to 1½ in.	19.60	17.85	16.25
10 to 12 ft. B&B 1½ to 1¾ in.	23.60	21.45	19.50
11 to 13 ft. B&B 1¾ to 2 in.	27.30	25.75	23.40
12 to 14 ft. B&B 2 to 2½ in.	33.00	30.00	27.30
12 to 14 ft. B&B 2½ to 3 in.	42.45	38.60	35.10

ADAMS NEEDLE (see YUCCA)

ALBIZZIA julibrissin—30′ (Zone 7) **Mimosa**

An oriental plant which can be seen growing all over the South. Beautiful pink to orange blossoms through late July and August.

2 to 3 ft. B&B	3.15	2.85	2.60
3 to 4 ft. B&B	3.60	3.25	2.90
4 to 5 ft. B&B	4.30	3.90	3.60
5 to 6 ft. B&B	5.85	5.35	4.90

Ingleside Azaleas as usual are healthy, vigorous, and beautiful.

Unit Price in Quantities	1-9	10-24	25-more

ALBIZZIA julibrissin Charlotte—30' (Zone 7) **Charlotte Mimosa**

Graceful, small tree. Pink, fuzzy flowers all summer. Dainty, fine cut leaves. Introduced in this country from China in 1745. This new blight-resistant variety is recommended for many areas along the eastern seaboard.

4 to 5 ft. B&B	5.50	5.05	4.60
5 to 6 ft. B&B	6.95	6.35	5.85
6 to 8 ft. B&B	10.15	9.30	8.45

ALMOND (see PRUNUS)

ANDROMEDA (see PIERIS)

ARBORVITAE (see THUJA)

AZALEA (Zone 6 to 9) **Azalea**

If you are interested in first quality landscape azaleas, with a dependable and reliable nursery to assure you of delivery in both spring and fall, we suggest that you become a regular customer of INGLESIDE PLANTATION NURSERIES and be sure to receive your quota of these fine plants.

As shown in the above photograph, our azalea producing area is located in a naturally protected section of the nursery. They are grown in full sun under natural soil conditions, which make them tough, hardy, and sure to live when transplanted to your customers

garden. The deep green leaf coloring, compact growth, healthy appearance, and solid ball of earth will be sure to please you.

Although we can and do supply excellent azaleas for the florist trade, our primary objective in the azalea business is to produce the finest plants for the landscape nurseryman. Our plants have proven over the years that they are the finest obtainable for this purpose. One look at our azalea producing area will convince you.

Kurume Types 3'

Introduced from Japan. Many named varieties. Dense growth habit. Small leaves. Solid mass of color when in bloom. Hardy, evergreen.

Christmas Cheer—Crimson—8-10″, 10-12″, 12-15″, 15-18″

Coral Bell—Coral Pink—8-10″, 10-12″, 12-15″

Hinodegiri—Bright Red—8-10″, 10-12″, 12-15″, 15-18″, 18-24″, 24-30″

Hino-crimson —Bright Red—8-10″, 10-12″, 12-15″

Snow—White—8-10″, 10-12″, 12-15″, 15-18″, 18-24″

Pink Pearl—Deep Pink—8-10″, 10-12″, 12-15″, 15-18″

Mucronatum Type Azalea

An evergreen type which is unusually hardy. Commonly (and incorrectly) known as an indica variety. Large leaves and large flowers which are somewhat fragrant.

Ledifolia alba—White—8-10″, 10-12″, 12-15″, 15-18″, 18-24″

Hybrids

There have been many Azalea hybrids developed in recent years. We offer in addition to the standard varieties listed above a few of the hybrids which we think are good varieties to use in general landscape work.

Atalanta—Lavender—8-10″, 10-12″, 12-15″, 15-18″

Del. Valley White—White—8-10″, 10-12″, 12-15″, 15-18″, 18-24″

Macrantha—Salmon, Late bloomer—8-10″, 10-12″, 12-15″, 15-18″

Rosebud—Rose Pink Gable hybrid—8-10″, 10-12″, 12-15″, 15-18″

(See Azalea prices page 6)

Unit Price in Quantities	1-9	10-24	25-more

Wilhelmina Vuyk (Palestrina)—White Kaempferi hybrid—10-12″, 12-15″, 15-18″, 18-24″, 24-30″, 30-36″

8 to 10 in. B&B	2.10	1.95	1.75
10 to 12 in. B&B	2.40	2.20	2.00
12 to 15 in. B&B	3.00	2.75	2.50
15 to 18 in. B&B	3.90	3.55	3.25
18 to 24 in. B&B	5.05	4.60	4.20
24 to 30 in. B&B	6.60	6.05	5.50
30 to 36 in. B&B	8.60	7.85	7.15

Deduct 15 cents per plant if you prefer not to have Azaleas burlapped.

B

BARBERRY (see BERBERIS)

BAYBERRY (see MYRICA)

BEAUTYBUSH (see KOLKWITZIA)

BEECH (see FAGUS)

BERBERIS julianae—8′ (Zone 6) **Wintergreen Barberry**

Introduced to this country around 1900 from China. Yellow fragrant flowers in April. Bluish-black berries in fall. Foliage, shiny green in summer, bronze to bright red tinted through winter. Dense growth habit. Hardiest of the evergreen barberries. Suitable for hedges, foundation plantings, and excellent in parks or lawns as a barrier to keep pedestrian traffic on the sidewalks.

12 to 15 in. B&B	2.35	2.15	1.95
15 to 18 in. B&B	3.10	2.85	2.60
18 to 24 in. B&B	4.30	3.95	3.60
24 to 30 in. B&B	5.45	5.00	4.60
30 to 36 in. B&B	7.00	6.45	5.85
3 to 3½ ft. B&B	9.35	8.60	7.80

BERBERIS julianae nana—5′ (Zone 6) **Dwarf Julianae Barberry**

Originated by U. S. Dept. of Agriculture at Beltsville, Maryland. Flowers are yellow and fragrant. Leaves deeper green than B. Julianae during summer and have brighter red winter coloring. Slower and more compact growth habit than B. Julianae. We recommend this barberry for every purpose that regular Julianae can be used.

9 to 12 in. B&B	2.50	2.25	____
12 to 15 in. B&B	3.15	2.85	____
15 to 18 in. B&B	3.60	3.30	____

Unit Price in Quantities	1-9	10-49	50-more

BERBERIS thunbergi—7′ (Zone 6) **Green Japanese Barberry**

This species has become one of the most widely used hedge plants. It grows in almost any soil and is noted for its ability to withstand dry conditions. Its dense, thorny habit, its bright red fruits remaining on all winter, and its scarlet autumn color make it an asset in any garden.

12 to 15 in.	.33	.30	.28
15 to 18 in.	.43	.39	.35
18 to 24 in.	.54	.49	.45

BERBERIS thunbergi atropurpurea—7′ (Zone 6)
Red Japanese Barberry

Similar to B. thunbergi in habit and growth but has reddish-purple leaves throughout the summer. Its color is more pronounced when planted in full sun.

12 to 15 in.	.55	.50	.45
15 to 18 in.	.70	.65	.58
18 to 24 in.	.85	.75	.70

Unit Price in Quantities	1-9	10-24	25-more

BERBERIS triacanthophora—4′ (Zone 6) **Threespine Barberry**

Whitish-red tinged flowers in April, blue-black berries in fall. Is also a very hardy variety. Low spreading type habit makes this barberry especially desirable as a foundation plant or for use at any location where a low growing evergreen plant is needed.

9 to 12 in. B&B	2.85	2.60	-----
12 to 15 in. B&B	3.65	3.30	-----
15 to 18 in. B&B	4.70	4.30	-----
18 to 24 in. B&B	6.25	5.75	-----

BERBERIS verruculosa—4′ (Zone 6) **Warty Barberry**

Yellow flowers in late April, black berries in fall. Leaves leathery green and nearly white on underneath side, bronze to red winter coloring. Compact spreading growth habit. Excellent as foundation plant.

9 to 12 in. B&B	2.90	2.65	2.40
12 to 15 in. B&B	3.80	3.45	3.15
15 to 18 in. B&B	4.80	4.40	4.00

See schedule of B&B charges on page 60 for those items you wish balled and burlapped which are not so listed.

Heavy clump birch are unusually popular at this time. We offer three excellent varieties. Also shown are Barberry thunbergi and Oxydendron.

Unit Price in Quantities	1-9	10-24	25-more

BETULA alba (pendula) (Zone 2) **European White Birch**

An European variety which has attractive white bark. Slightly pendulous branches. Rapid grower. Very effective as an accent or specimen plant. Unusually popular in recent years as a salesyard and landscape plant.

4 to 5 ft. B&B	3.90	3.55	3.25
5 to 6 ft. B&B	5.60	5.10	4.65
6 to 8 ft. B&B	7.80	7.15	6.50
4 to 5 ft. clumps B&B	5.05	4.60	4.20
5 to 6 ft. clumps B&B	6.80	6.20	5.65
6 to 8 ft. clumps B&B	9.80	8.95	8.15

BETULA papyrifera—40' (Zone 2) **Canoe Birch**

Pyramidal, foliage open, yellow autumn coloring. Stately beauty and majestic habit. Also known as Paper Birch. It was this tree which supplied the coverings for wigwams and huts, and from which Indian canoes were made. Bark is slow to turn color, but is the purest chalky white when mature.

4 to 5 ft. B&B	4.30	3.95	3.60
5 to 6 ft. B&B	5.90	5.40	4.90
6 to 8 ft. B&B	8.60	7.85	7.15
4 to 5 ft. clumps B&B	5.50	5.05	4.60
5 to 6 ft. clumps B&B	6.95	6.35	5.85
6 to 8 ft. clumps B&B	10.15	9.30	8.45

	Unit Price in Quantities 1-9	10-24	25-more

BETULA populifolia—30′ (Zone 4) **Gray Birch**

The bark is a good white, with many triangular black markings. Grows well in gravelly, or wet soil. Foliage open, yellow autumn coloring.

4 to 5 ft. B&B	3.90	3.55	3.25
5 to 6 ft. B&B	5.50	5.05	4.60
6 to 8 ft. B&B	6.95	6.35	5.85
4 to 5 ft. clumps B&B	5.05	4.60	4.20
5 to 6 ft. clumps B&B	6.60	6.05	5.50
6 to 8 ft. clumps B&B	9.35	8.60	7.80

BIOTA (see THUJA)

BIRCH (see BETULA)

BOXWOOD (see BUXUS)

BUDDLEIA davidi—15′ (Zone 6) **Butterfly Bush**

One of the few shrubs which flower in midsummer. Large pyramidal and fragrant flower spikes through July and August. Many fine colors to choose from. Excellent for cut flowers.

Concord ..... Bluish-Purple

Ile de France ..... Dark Purple

Orchid Beauty ..... Orchid

Pink Charming ..... Pink

Princeton Purple ..... Purple

Princeton White ..... White

2 to 3 ft. B&B	2.00	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95

5 to 6 ft. B&B	3.50	3.20	-----

BUTTERFLY BUSH (see Buddleia)

BUXUS sempervirens—20′ (Zone 6) **American Boxwood**

Native of Europe and introduced to this country during Colonial times. Leaves are dark green, have rather pointed shape. Wide base upright growth, fast growing, suitable for hedges or foundation planting.

6 to 8 in. B.R.	.65	.60	.55
8 to 10 in. B.R.	.88	.80	.75
10 to 12 in. B.R.	1.35	1.25	1.15
10 to 12 in. B&B	1.90	1.75	1.60
12 to 15 in. B&B	2.30	2.10	1.90

English Boxwood are extensively used as an edging plant. Also shown at the left are Berberis verruculosa and triacanthophora.

Unit Price in Quantities	1-9	10-24	25-more

BUXUS suffruticosa—6' (Zone 6) **Old English Boxwood**

Native of Europe and introduced during Colonial times. Can be seen in many famous Virginia gardens. Short roundish leaves, slow growing. The true edging Boxwood.

4 to 6 in. B.R.	.65	.55	.45
6 to 8 in. B.R.	.75	.70	.65
8 to 10 in. B.R.	1.30	1.15	.95
8 to 10 in. B&B	2.15	1.95	1.60

C

CALYCANTHUS floridus—4-5' (Zone 4) **Sweetshrub**

This native shrub has been associated with gardens in the United States since early colonial times. It grows as a dense bush with glossy foliage and grows well in almost any soil. The dark, reddish brown flowers are very fragrant and its foliage is aromatic when crushed.

12 to 18 in. B&B	1.55	1.45	1.30
18 to 24 in. B&B	1.90	1.75	1.60
2 to 3 ft. B&B	2.35	2.15	1.95

	Unit Price in Quantities 1-9	10-24	25-more

CAMELLIA japonica—45′ (Zone 7) **Spring Blooming Camellia**

This beautiful evergreen shrub is noted not only for its lustrous, dark green foliage, but also for its large, waxy flowers that bloom in early spring. Ideal for background planting and quite effective when used as a hedge or foundation plant. Many varieties have proven to be perfectly winter hardy at the National Aboretum in Washington, D. C. and the following have been especially selected for bud hardiness in our area.

Lady Clare—Carmine-Rose, Large semi-double

Victory White—Pure White, semi-double

Christine Lee—Pink

Mathotiana Varigated—Double, shaped like a rose

White Giant—Pure White, large semi-double

12 to 18 in. 2 gal. cans	3.10	2.85	2.60
18 to 24 in. 2 gal. cans	3.50	3.20	2.90
24 to 30 in. 2 gal. cans	4.45	4.10	3.70
30 to 36 in. 2 gal. cans	5.50	5.05	4.60

CAMELLIA sasanqua—20′ (Zone 6) **Sasanqua Camellia**

Introduced from Japan during latter part of 19th century but has only recently become popular. This hardy, fall blooming, excellent evergreen should be used in every park and garden of this area. We recommend our acclimated Virginia grown plants.

Sasanqua Varieties

Cleopatra—Semi-double, deep rose pink. Compact grower and heavy bloomer—15-18″, 18-24″, 24-30″

Maidens blush—Single, delicate pink—15-18″, 18-24″

15 to 18 in. B&B	3.15	2.85	----
18 to 24 in. B&B	4.35	4.00	----
24 to 30 in. B&B	5.45	5.00	----

CEDRUS deodara—150′ (Zone 7) **Indian Cedar**

We recommend this tree above all other coniferous evergreens for this area.

18 to 24 in. B&B	3.15	2.85	2.60
2 to 3 ft. B&B	4.20	4.00	3.60
3 to 4 ft. B&B	5.90	5.45	4.90
4 to 5 ft. B&B	7.80	7.15	6.50
5 to 6 ft. B&B	10.90	10.00	9.10
6 to 7 ft. B&B	15.60	14.30	----
7 to 8 ft. B&B	23.60	21.45	----

Sheared Cedrus deodara with its blue-green color are most desirable.

Unit Price in Quantities	1-9	10-24	25-more

CEDRUS libani—120' (Zone 5) **Cedar of Lebanon**

Narrow, pyramidal while young, branches stiffly horizontal. Foliage evergreen, needle-like, in bunches, rigidly up-right. Introduced from Asia Minor in colonial times. Mentioned in the Bible; Solomon's Temple was built with its massive timbers. Very formal in habit and popular because of its Biblical associations.

12 to 15 in. 1 gal. cans	2.80	2.60	-----
15 to 18 in. 1 gal. cans	3.20	2.90	-----
18 to 24 in. 1 gal. cans	3.50	3.20	-----

CERCIS canadensis—35' (Zone 6) **American Redbud**

A popular native of the eastern states. Flower buds are deep purplish red turning to pink as they open in May. Useful as small flowering tree, especially attractive when planted with Dogwood.

3 to 4 ft.	1.55	1.40	1.30
4 to 5 ft.	2.00	1.90	1.60
5 to 6 ft.	2.80	2.60	2.25
6 to 7 ft.	3.60	3.25	2.90

CERCIS chinensis—15' (Zone 6) **Chinese Redbud**

A shrub-like small flowering tree from central China. Deeper pink flower than C. Canadensis. Very attractive as a large shrub or small tree.

18 to 24 in.	1.30	1.15	-----
2 to 3 ft.	1.40	1.30	-----
3 to 4 ft.	2.00	1.90	-----

	Unit Price in Quantities 1-9	10-24	25-more

CHAMACYPARIS cyano viridis—12' (Zone 5) **Blue Cypress**

An excellent, slow growing pyramidal type of cypress, with blue-gray foliage. Highly recommended for foundation use. A very attractive and desirable evergreen.

12 to 15 in. B&B	2.85	2.60	----
15 to 18 in. B&B	3.10	2.85	----

CHAMAECYPARIS lawsoniana allumii— (Zone 5)
Lawsons Blue Cypress

A columnar form of Blue Cypress. Native of West Coast States. Interesting accent plant among coniferous planting.

18 to 24 in. B&B	3.15	2.85	----
2 to 3 ft. B&B	3.90	3.60	----
3 to 4 ft. B&B	5.50	5.00	----

CHERRY, FLOWERING (see PRUNUS)

CHIMONANTHUS (see MERATIA)

CITRUS trifoliata (Poncirus)—9-10' (Zone 5) **Trifoliate Orange**

Our only hardy orange. Fruit not edible, but plant is prized for its hardiness as an ornamental and hedge plant. White flowers in the spring and quantities of colorful little oranges in the fall and early winter.

18 to 24 in. 2 gal. cans	2.10	1.95	----
2 to 3 ft. 2 gal. cans	2.50	2.30	----

CLEMATIS montana rubens—12-15' (Zone 5)
Pink Anemone Clematis

One of the most vigorous and beautiful of the early Clematises. Covered in May with bright pink flowers 1½ inches across.

18 to 24 in. 1 gal. cans	1.95	1.80	----
2 to 3 ft. 1 gal. cans	2.35	2.15	----

CLEYERA japonica (Zone 7)

An evergreen shrub with very fragrant, creamy-white flowers. Red berries in fall of year. Beautiful shiny, bronze to green foliage makes this a most attractive shrub.

12 to 18 in. B&B	3.10	2.85	2.60
18 to 24 in. B&B	4.40	4.00	----
2 to 3 ft. B&B	5.50	----	----

Our American redbud are bushy and vigorous.

Unit Price in Quantities	1-9	10-24	25-more

CORNUS florida—30' (Zone 5) **White Dogwood**

By far our finest native flowering tree. Large white flowers in May followed in fall by bright red fruits. Summer foliage has no disease or insect pest. Excellent scarlet fall leaf coloring. An ideal small ornamental tree which we highly recommend. Our block of dogwoods are unusually nice this year.

2 to 3 ft.	1.55	1.40	1.30
3 to 4 ft.	2.35	2.15	1.95
4 to 5 ft. B&B	5.75	5.35	4.75
5 to 6 ft. B&B	8.25	7.60	6.90
6 to 8 ft. B&B	11.70	10.70	9.75

CORNUS florida rubra—30' (Zone 5) **Pink Dogwood**

A pink flowering variety of C. Florida. Always a very popular salesyard item. Very effective when planted with a white flowering dogwood background or as a specimen tree.

2 to 3 ft. B&B	3.90	3.60	3.25
3 to 4 ft. B&B	5.50	5.00	4.60
4 to 5 ft. B&B	7.80	7.15	6.50
5 to 6 ft. B&B	10.90	10.00	-----
6 to 7 ft. B&B	14.00	12.85	-----

Unit Price in Quantities	1-9	10-24	25-more

CORNUS kousa—21′ (Zone 5) **Kousa Dogwood**

A native of Japan and Korea which has all the excellent features of our native dogwood. Its blooming period, usually one month later than C. Florida, is the main reason for its growing popularity. We strongly recommend this variety for use on the better landscape jobs.

2 to 3 ft. B&B	3.90	3.60	3.25
3 to 4 ft. B&B	5.50	5.00	4.60
4 to 5 ft. B&B	6.95	6.35	5.85
5 to 6 ft. B&B	10.90	10.00	-----

COTONEASTER dammeri—1′ (Zone 5) **Bearberry Cotoneaster**

Distinct because of its prostrate, long trailing habit; excellent as an evergreen ground cover. Imported from China in the early 1900's. Narrow, bright green leaves, white flowers and scarlet fruits which last all winter.

9 to 12 in. 1 gal. cans	2.35	2.15	1.95

COTONEASTER horizontalis (davidiana)—3′ (Zone 4) **Rock Spray**

Small, pinkish flowers in mid-June. Bright red berries in early fall. Semi-evergreen. Reddish autumn coloring. Flat, horizontal branches makes it suited for planting in rock gardens or on low banks where it will serve admirably as a ground cover. An excellent plant for almost any small garden.

9 to 12 in. 1 gal. cans	1.90	1.75	1.60
12 to 15 in. 1 gal. cans	2.35	2.15	1.95
15 to 18 in. 1 gal. cans	2.85	2.60	-----

CRAB APPLE (see MALUS)

CRAPE MYRTLE (see LAGERSTROEMIA)

CRYPTOMERIA japonica—150′ (Zone 6) **Cryptomeria**

The Japanese timber tree. Very hardy, pyramidal type. A fast growing, interesting and desirable evergreen tree.

2 to 3 ft. B&B	2.85	2.60	-----
3 to 4 ft. B&B	4.65	4.20	-----
4 to 5 ft. B&B	6.80	6.20	-----
5 to 6 ft. B&B	8.95	8.15	-----
6 to 8 ft. B&B	12.60	11.40	-----
8 to 10 ft. B&B	17.15	15.60	-----

	Unit Price in Quantities 1-9	10-24	25-more

CRYPTOMERIA japonica lobbi—40-50′ (Zone 4) **Lobb Cryptomeria**

A narrow, columnar deep green Cryptomeria selection. Rich bronze winter coloring. Evergreen. Easy to grow. Beautiful when used as avenue planting.

18 to 24 in. grafts, B&B	4.30	3.95	3.60
2 to 3 ft. grafts, B&B	4.70	4.30	3.90
3 to 4 ft. grafts, B&B	5.50	5.05	4.60

5 to 6 ft. grafts, B&B	10.90	10.00	9.10

CYDONIA japonica—4-5′ (Zone 4) **Flowering Quince**

A most attractive and popular shrub with scarlet flowers which appear early in May. Its spicy fruit makes delicious jelly.

18 to 24 in. B&B	1.90	1.75	1.60
2 to 3 ft. B&B	2.35	2.15	1.95
3 to 4 ft. B&B	2.70	2.50	2.25

CYPRESS (see CHAMAECYPARIS)

D

DAVIDIA involucrata—30′ (Zone 6) **Dove Tree**

A rare and unusual small tree. Large, 6 inch white flowers in May. Rather course, dense foliage. Broad pyramidal habit. A beautiful novelty.

2 to 3 ft. 2 gal. cans	6.75	-----	-----

DEUTZIA "Pride of Rochester"—8′ (Zone 5) **Large Flowered Deutzia**

One of the old favorite Deutzias. Pink flowers changing to white. Hardy fast growing shrub.

18 to 24 in. B&B	1.55	1.40	1.30
2 to 3 ft. B&B	2.00	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95
4 to 5 ft. B&B	3.60	3.25	2.90

DOGWOOD (see CORNUS)

DOVE TREE (see DAVIDIA)

E

ELEAGNUS pungens compacta—10′ (Zone 6) **Evergreen Eleagnus**

Introduced from Japan. Small, white flowers in October, very fragrant. Foliage is silvery green. A vigorous grower. Excellent for hedges and foundation plantings.

15 to 18 in. B&B	2.35	2.15	1.95
18 to 24 in. B&B	2.80	2.60	2.25
24 to 30 in. B&B	3.60	3.30	2.90
30 to 36 in. B&B	4.70	4.30	3.90
3 to 3½ ft. B&B	6.25	5.70	-----

Unit Price in Quantities	1-9	10-24	25-more

ELEAGNUS pungens ebbingei—10′ (Zone 6)

Similar to E. pungens compacta but with larger, deeper green leaves and much slower rate of growth. An excellent new eleagnus.

15 to 18 in. B&B	3.20	2.85	2.60
18 to 24 in. B&B	3.90	3.60	3.25
24 to 30 in. B&B	4.70	4.30	3.90
30 to 36 in. B&B	5.50	5.05	4.60

EUONYMUS japonica—12′ (Zone 7) **Evergreen Euonymus**

A Japanese introduction, during early 1800's. Deep green, waxy foliage. Orange fruit in late summer. Used extensively throughout the south and along the seashore for hedges and foundation planting.

12 to 15 in. B&B	2.35	2.15	1.95
15 to 18 in. B&B	2.75	2.55	2.25
18 to 24 in. B&B	3.50	3.25	2.90
24 to 30 in. B&B	4.70	4.30	3.90

EUONYMUS japonica variegata—12′ (Zone 7)
Variegated Euonymus

Similar in all respects to the above described variety except leaf coloring. Has striking golden variegated leaves. A good sales-yard item.

12 to 15 in. B&B	2.60	2.40	2.15
15 to 18 in. B&B	3.00	2.75	2.50
18 to 24 in. B&B	3.90	3.60	3.25
24 to 30 in. B&B	5.10	4.70	4.20

EUONYMUS microphylla pulchella—15″ (Zone 7)
Dwarf Evergreen Euonymus

Lustrous, evergreen foliage, leaves 1 in. or less in length. Used as specimen or in low hedges. This dwarf plant offers a diversity of foliage characteristic most useful for variations in plantings.

6 to 9 in. 4 in. pots	.95	.85	.75

EUONYMUS patens—9′ (Zone 5-6) **Spreading Euonymus**

Also called Euonymus Kiautschovica. Light green foliage. Orange-red berries in early fall. Very hardy. New growth appears in very early spring. Suitable for foundation or specimen planting.

12 to 15 in. B&B	2.00	1.90	1.60
15 to 18 in. B&B	2.35	2.15	1.90
18 to 24 in. B&B	2.60	2.50	2.20
24 to 30 in. B&B	3.45	3.20	2.80
30 to 36 in. B&B	4.70	4.30	3.90

	Unit Price in Quantities 1-9	10-24	25-more

EUONYMUS radicans colorado—3′ (Zone 5) **Purpleleaved Wintercreeper**

An excellent, very hardy vine or low shrub from China. Green foliage throughout summer turning to purplish red in the fall. Useful as a ground cover and can be trained to cover stone walls and fences.

9 to 12 in. 1 Yr.	.40	.30	.26
12 to 15 in. 2 Yr.	.50	.45	.40
15 to 18 in. 2 Yr.	.65	.55	.50

FAGUS sylvatica riversi—50-60′ (Zone 4) **Rivers Purple Beech**

Grafted plants, dark purple, glossy foliage. The best purple form of the European beech. Slender when young but grows in to a magnificent dense specimen. Bronze autumn coloring. Dark gray bark.

2 to 3 ft. 2 gal. cans	7.80	-----	-----

F

FICUS carica—30′ (Zone 7) **Common Fig Tree**

Introduced during Colonial times from western Asia. With winter protection figs are quite hardy as far north as Long Island. An excellent small tree or shrub for this area. Edible fruits borne twice a year when weather conditions are favorable.

2 to 3 ft. B&B	3.25	2.85	-----
3 to 4 ft. B&B	4.70	4.30	-----

FIG (see FICUS)

FIRETHORN (see PYRACANTHA)

FORSYTHIA spectabilis—10′ (Zone 5) **Showy Border Forsythia**

A vigorous German hybrid that has become probably the most well known flowering shrub in this country. This variety has deep yellow flowers and upright growth habit. A very useful and popular shrub.

18 to 24 in. B&B	1.55	1.40	1.30
2 to 3 ft. B&B	2.00	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95
4 to 5 ft. B&B	3.60	3.25	2.90

FORSYTHIA lynwood gold—8′ (Zone 5) **Lynwood Gold Forsythia**

A new widely publicized variety similar to F. Spectablis but with larger, deeper yellow flowers.

18 to 24 in. B&B	1.85	1.55	1.40
2 to 3 ft. B&B	2.20	2.00	1.85
3 to 4 ft. B&B	2.50	2.25	2.10
4 to 5 ft. B&B	3.60	3.25	2.90

Forsythia, Weigela, Spirae, and Vitex are again top quality at Ingleside.

G

Unit Price in Quantities	1-9	10-24	25-more

GELSEMIUM sempervirens—20 to 30' (Zone 7)

Carolina Yellow Jessamine

An evergreen, twining vine, with bright yellow flowers and glossy foliage. Blooms throughout season. Used especially as a cover for porches, banks, and arbors.

12 to 18 in. 4 in. pots	1.20	1.10	------

H

HEAVENLY BAMBO (see NANDINA)

HOLLY (see ILEX)

HONEYSUCKLE (see LONICERA)

HYDRANGEA arborescens grandiflora—5' (Zone 5)

Snowhill Hydrangea

Found in native Ohio. Dense upright growth. Large double white panicles which when fully open make a beautiful display. Very popular and easy to grow.

18 to 24 in. B&B	1.55	1.40	------
2 to 3 ft. B&B	2.00	1.90	------
3 to 4 ft. B&B	2.35	2.15	------

	Unit Price in Quantities 1-9	10-24	25-more

ILEX glabra—20′ (Zone 4) **Inkberry**

A native of the eastern United States. Willowy type growth, blue-black berries. An excellent park and roadside evergreen, good in wet locations, in sun or shade.

12 to 15 in. B&B	2.20	2.00	1.85
15 to 18 in. B&B	2.75	2.60	2.25
18 to 24 in. B&B	3.60	3.30	2.90
24 to 30 in. B&B	4.70	4.30	3.90
30 to 36 in. B&B	6.25	5.70	5.20

ILEX glabra compacta—20′ (Zone 4) **Dwarf Inkberry**

A hardy dwarf broadleaf evergreen with shiny dark green leaves and with extremely compact growth habit.

12 to 15 in. B&B	2.85	2.60	2.50
15 to 18 in. B&B	3.90	3.60	3.25
18 to 24 in. B&B	5.10	4.70	4.20

ILEX latifolia—60′ (Zone 8) **Lusterleaf Holly**

An elegant holly with large, lustrous, dark green leaves and growth habit that makes it look like Magnolia grandiflora from a distance. Large, bright red fruit produced in compact bunches, are held throughout the winter. Needs winter protection north of Zone 8.

12 to 18 in. B&B	3.90	3.55	-----
18 to 24 in. B&B	4.70	4.30	-----

ILEX opaca—50′ (Zone 6) **American Holly**

Native of the eastern United States and considered by many to be our most useful native broadleaf evergreen tree. We offer seedlings which we cannot select as to sex. They have been selected as to growth habit and only those plants which show good leaf coloring and appear to be of a vigorous type are offered. Selected seedlings make hardy and bushy specimens. Excellent for large hedge, windbreak, or specimen tree.

18 to 24 in. B&B	3.15	2.85	2.60
2 to 3 ft. B&B	4.70	4.30	3.90
3 to 4 ft. B&B	7.80	7.15	6.50
4 to 5 ft. B&B	11.70	10.70	9.75
5 to 6 ft. B&B	19.50	17.90	16.25
6 to 7 ft. B&B	31.45	28.60	26.00

ILEX opaca arden (Zone 6)

One of the better named varieties of female American Holly. Large deep red berries, good leaf coloring and growth habit. This variety should be used when one wishes to plant a top quality specimen female Holly.

18 to 24 in. B&B	6.25	5.75	-----
2 to 3 ft. B&B	8.50	7.80	-----
3 to 4 ft. B&B	11.75	10.75	-----

American holly takes a good many years to look like these plants.

Unit Price in Quantities	1-9	10-24	25-more

ILEX opaca East Palatka (Zone 7)

An American Holly type discovered near East Palatka, Florida. Leaves small and light green and are not spiny. Heavy fruiter.

2 to 3 ft. B&B	4.70	4.30	3.90
3 to 4 ft. B&B	6.80	6.20	5.50
4 to 5 ft. B&B	9.35	8.60	7.80
5 to 6 ft. B&B	14.15	12.85	----

ILEX opaca femina—50' (Zone 6) **Female American Holly**

These plants are grown from cuttings of beautiful berry bearing specimens. Everyone should have among their lawn trees, one or more Female American Hollies. American Holly stands shearing well, is suitable in shade or sun, wet or dry locations, therefore has many uses as an ornamental plant. Order your berried plants early. We can supply selected *male* plants at prices listed below for berry-bearing plants. Please state sex wanted.

18 to 24 in. B&B	4.70	4.30	3.90
2 to 3 ft. B&B	7.80	7.15	6.50
3 to 4 ft. B&B	11.00	10.00	9.10
4 to 5 ft. B&B	15.60	14.30	13.00

3 to 4 ft. B&B	3.90	3.55	3.25

JASMINUM nudiflorum—5' (Zone 6) **Winter Jasmine**

A shrub of China which begins to show its yellow blossoms during the first warm days of January and February. Long pendulous branches give the plant a graceful appearance.

12 to 18 in. B&B	1.55	1.40	1.30
18 to 24 in. B&B	2.00	1.90	1.70
2 to 3 ft. B&B	2.35	2.15	1.95

JUDAS TREE **(see CERCIS)**

Our spreading Junipers again this year are perfect in every respect.

Unit Price in Quantities	1-9	10-24	25-more

JUNIPERUS chinensis glauca hetzi—10' (Zone 5) **Hetz Blue Juniper**

This variety is very similar to J. Pfitzeriana in many ways but has the following features that make it a most excellent variety. A rapid grower, bluish-green foliage, and a medium spreading growth habit. Suitable for foundation and specimen planting.

12 to 15 in. B&B	2.35	2.15	1.95
15 to 18 in. B&B	3.15	2.85	2.60
18 to 24 in. B&B	4.35	4.00	3.60
24 to 30 in. B&B	5.45	5.00	4.30
30 to 36 in. B&B	7.00	6.35	5.85
3 to 3½ ft. B&B	9.35	8.60	7.80

JUNIPERUS chinensis pfitzeriana—6' (Zone 5) **Pfitzer Juniper**

This variety originated in Germany and was introduced in this country around 1900. It has become one of the most popular and well known ornamental evergreens in use today. Wide spreading growth habit, light feathery foliage texture. Used for foundation and specimen plantings.

12 to 15 in. B&B	2.80	2.60	2.25
15 to 18 in. B&B	3.60	3.30	2.90
18 to 24 in. B&B	4.70	4.30	3.90
24 to 30 in. B&B	5.95	5.40	4.90
30 to 36 in. B&B	7.50	6.80	6.20
3 to 3½ ft. B&B	9.35	8.60	7.80

	Unit Price in Quantities 1-9	10-24	25-more

JUNIPERUS chinensis sargenti—1' (Zone 4) **Sargent Juniper**

A low, prostrate, creeping shrub. Foliage steel-blue, evergreen and needle-like. Brought here from the Kurile Islands in 1892.

6 to 9 in. B&B or 1 gal. cans	1.90	1.75	1.60
9 to 12 in. B&B or 1 gal. cans	2.35	2.15	1.95

JUNIPERUS conferta (Litoralis)—1' (Zone 5) **Shore Juniper**

A low evergreen shrub with needle-like foliage. Excellent for ground cover planting, and especially adapted for planting on sand dunes in the vicinity of the seashore where other junipers cannot be grown successfully.

9 to 12 in. 1 gal. cans	1.90	1.75	1.60
12 to 15 in. 1 gal. cans	2.35	2.15	1.95

JUNIPERUS pfitzeriana compacta—6' (Zone 5)
Compact Pfitzer Juniper

Similar to J. pfitzer but a much more compact plant. Especially suitable for low ranch style homes.

12 to 15 in. B&B	3.15	2.85	2.60
15 to 18 in. B&B	3.90	3.60	3.25
18 to 24 in. B&B	5.05	4.60	4.20

JUNIPERUS depressa plumosa—4' (Zone 5) **Andorra Juniper**

A spreading type of juniper with purplish foliage in winter. Very attractive, very hardy and low growing.

12 to 15 in. B&B	2.60	2.25	1.95
15 to 18 in. B&B	3.60	3.25	2.90
18 to 24 in. B&B	4.90	4.30	3.90

JUNIPERUS excelsa stricta—10' (Zone 5) **Greek Juniper**

A broad based pyramidal juniper with striking gray-green foliage. An excellent item for the plant market.

12 to 15 in. B&B	2.35	2.15	____
15 to 18 in. B&B	2.75	2.55	____
18 to 24 in. B&B	3.50	3.25	____
2 to 2½ ft. B&B	4.70	4.30	____

K

KOLKWITZIA amabilis—10' (Zone 5) **Beautybush**

This pink flowering shrub from China has been widely advertised and used. Tall upright arching branches. Grows in most any soil and location. Blooms in May.

18 to 24 in. B&B	2.05	1.90	____
2 to 3 ft. B&B	2.35	2.15	____
3 to 4 ft. B&B	3.10	2.85	____

Unit Price in Quantities	1-9	10-24	25-more

LAGERSTROEMIA indica W. Toovey—20' (Zone 7) **Red Crape Myrtle**

Another Chinese plant introduced during Colonial times and one which has become a familiar plant throughout the south. Its delicate crinkled flowers make quite a show from July through September. Usually grown as a large shrub.

18 to 24 in. B&B or cans	2.80	2.60	2.25
2 to 3 ft. B&B or cans	3.25	3.00	2.75
3 to 4 ft. B&B	4.70	4.30	3.90
4 to 5 ft. B&B	6.25	5.70	5.20

LAUREL (see KALMIA)

LAUREL (see PRUNUS)

LIGUSTRUM lucidum—15' (Zone 6) **Waxleaf Privet**

Introduced from Japan around 1800. White flowers in May. Blue-black berries, glossy green foliage. One of the most widely used broadleaf evergreens in recent years. Because it transplants easily, is free from disease and insect pests, and its ability to thrive under adverse conditions we recommend its continued use as a foundation, specimen, and hedge plant. Very popular in the salesyard.

12 to 15 in. B&B	2.00	1.90	1.60
15 to 18 in. B&B	2.25	2.15	1.95
18 to 24 in. B&B	2.80	2.55	2.25

30 to 36 in. B&B	5.20	4.75	4.20

Unit Price in Quantities	1-9	10-49	50-more

LIGUSTRUM ovalifolium—15' (Zone 5) **California Privet**

Another Japanese native which has become one of the most popular of privet hedges. White flower clusters in June. Black berries in fall. Glossy green leaves make this a popular variety for formal clipped hedges.

12 to 18 in.	.15	.12
18 to 24 in.	.19	.14
2 to 3 ft.	.22	.20
3 to 4 ft.	.30	.28

See schedule of B&B charges on page 60 for those items you wish balled and burlapped which are not so listed.

Unit Price in Quantities	1-9	10-49	50-more

LIGUSTRUM sinensis—12' (Zone 7) **Chinese Privet**

A long lived handsome privet from China. Evergreen in this area. White flowers and black berries. Excellent for clipped hedges. Can be used as an inexpensive evergreen shrub in the salesyard when dug B&B. We recommend this variety wherever it is winter hardy.

12 to 18 in.	.25	.19	.13
18 to 24 in.	.30	.25	.19
2 to 3 ft.	.40	.30	.25
3 to 4 ft.	.50	.45	.40

Unit Price in Quantities	1-9	10-24	25-more

LIGUSTRUM Suwannee River plant—Pat. No. 1402 (Zone 6) **Suwannee River Privet**

A new patented variety which we are growing under license from the patent owner. Slow growing, spreading habit, curly leaves. We heartily recommend that you use Suwannee River as the new plant to attract customers.

12 to 15 in. B&B	2.80	2.60	2.25
15 to 18 in. B&B	3.15	2.85	2.60
18 to 24 in. B&B	3.90	3.60	3.25

LILAC (see **SYRINGA**)

LILAC CHASTE TREE (see **VITEX**)

LINDEN (see **TILIA**)

LOMBARDY POPLAR (see **POPULUS**)

LONICERA heckrotti (Zone 4) **Goldflame Honeysuckle**

Flowers fragrant, orange outside, yellow inside. A climbing vine that blooms from June to September.

18 to 24 in. 1 gal. cans	2.00	1.80	-----
2 to 3 ft. 1 gal. cans	2.35	2.15	-----

California privet is always good at Ingleside.

Unit Price in Quantities	1-9	10-24	25-more

LONICERA japonica halliana (Zone 4) **Hall's Japanese Honeysuckle**

A free blooming vine with very fragrant white and yellow flowers. Almost evergreen and ideal for banks and ground cover.

1 yr. field grown	.25	.22	.20
2 yr. field grown	.30	.28	.25
1 yr., 2¼ in. pots	.30	.28	.25

LONICERA nitida—6' (Zone 6) **Box Honeysuckle**

Introduced from China. Fragrant creamy white flowers followed by purple berries. Small leaves. Suitable for a low hedge as a substitute for Boxwood. Stands shearing. Used near seashore.

12 to 15 in. B&B	2.00	1.90	1.70
15 to 18 in. B&B	2.35	2.15	1.90
18 to 24 in. B&B	2.80	2.60	2.35
24 to 30 in. B&B	3.60	3.30	3.00

LONICERA pileata—4' (Zone 6) **Privet Honeysuckle**

Also introduced from China. White flowers in April followed by purple berries in fall. Glossy green leaves a little larger than Lonicera Nitida. Spreading growth habit makes this plant an interesting ornamental. Useful in shady locations as well as full sun.

12 to 15 in. B&B	2.00	1.90	1.70
15 to 18 in. B&B	2.80	2.60	2.35
18 to 24 in. B&B	3.60	3.30	3.00
2 to 2½ ft. B&B	4.70	4.30	3.90

	Unit Price in Quantities 1-9	10-24	25-more

LONICERA tartarica rosea—10′ (Zone 4) **Pink Bush Honeysuckle**

A vigorous growing shrub from southern Russia. Pink flowers in May followed by red berries. Useful as shrub or hedge plant.

18 to 24 in. B&B	1.55	1.40	1.30
2 to 3 ft. B&B	2.00	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95

M

MAGNOLIA glauca (virginiana)—40′ (Zone 5) **Sweet Bay**

Fragrant, waxy white flowers which bloom late in May. Nearly evergreen. Prefers wet, even swampy soil.

18 to 24 in. B&B	3.50	3.20	2.90
2 to 3 ft. B&B	4.30	3.95	3.60
3 to 4 ft. B&B	5.50	5.05	4.60

MAGNOLIA grandiflora—90′ (Zone 7) **Southern Magnolia**

A native of our southeastern states. Large white fragrant flowers in May and June, followed by large seed pods which show their bright red seed during the fall months. Large shiny green leaves make a beautiful year round display. Our well grown Magnolias sell on sight in the salesyard and will make magnificent specimens in any park or lawn.

Branched:

18 to 24 in. B&B	2.80	2.60	2.25

9 to 11 ft. B&B, 2½ to 3 in.	55.25	----	----
10 to 12 ft. B&B, 3 to 3½ in.	84.50	----	----

We have Magnolia grandiflora in sizes up to 12 feet.

Unit Price in Quantities	1-9	10-24	25-more

MAGNOLIA soulangeana—35' (Zone 6) **Saucer Magnolia**

Originated in France. Large pink to purple flowers appear in early spring before the leaves. Shrub-like tree which can be trained to a single trunk if desired. A very showy spring blooming tree which is most popular in the salesyard.

2 to 3 ft. B&B	3.60	3.30	2.90
3 to 4 ft. B&B	5.15	4.75	4.20
4 to 5 ft. B&B	7.00	6.35	5.85
5 to 6 ft. B&B	9.80	9.00	8.15
6 to 7 ft. B&B	14.30	13.00	11.70
7 to 8 ft. B&B	18.85	17.15	15.60
8 to 9 ft. B&B	23.40	21.45	19.50

MAGNOLIA soulangeana nigra—25' (Zone 6)
Purple Saucer Magnolia

Similar to M. soulangeana but has flowers that are a rich purple outside, whitish inside. It is a late bloomer making it more desirable wherever late frosts occur.

18 to 24 in. B&B	3.15	2.85	2.60
2 to 3 ft. B&B	3.90	3.60	3.25
3 to 4 ft. B&B	5.50	5.00	4.60

See our special bareroot shrub offer page 53.

MAHONIA aquifolium—6′ (Zone 6) **Oregon Holly Grape**

A native of our Northern Pacific Coast States. Bright yellow flowers in April. Beautiful blue grape-like fruits follow in June. Spiny holly-like leaves have high glossy green appearance throughout summer, followed by bronze to red winter coloring. This desirable plant has many uses and is especially recommended for foundation, specimen, and tall ground cover planting. Good in sun or shade. Can be kept low by proper pruning.

12 to 15 in. B&B	2.35	2.15	1.95
15 to 18 in. B&B	2.80	2.60	2.25
18 to 24 in. B&B	3.60	3.30	2.90
24 to 30 in. B&B	4.70	4.30	3.90
30 to 36 in. B&B	6.25	5.70	-----

MAHONIA bealei—12′ (Zone 7) **Leatherleaf Mahonia**

A native of China. Yellow fragrant flowers in April followed by light blue fruit. Dull bluish-green spring foliage. Makes an excellent and most interesting large shrub. Suitable in sun or shade.

12 to 15 in. B&B	2.50	2.25	2.10
15 to 18 in. B&B	3.00	2.75	2.50
18 to 24 in. B&B	3.90	3.60	3.25
24 to 30 in. B&B	5.15	4.75	4.20
30 to 36 in. B&B	6.50	5.85	5.20

MALUS—15′ to 20′ (Zone 6) **Flowering Crab Apple**

The flowering crab apples are among our best small flowering trees. There are many named varieties of which we grow a few of the most popular. Very useful as specimen plants in small or large lawns and parks. Superior as a salesyard tree when potted or B&B.

M. Atrosanguinea—Single Red—5-6′, 6-7′, 7-8′

M. Elleyii—Single Red—5-6′, 6-7′, 7-8′

M. Floribunda—Single Rose—5-6′, 6-7′

M. Hoppi—Rose Red—4-5′, 5-6′, 6-7′, 7-8′, 8-9′

O

OAK (see QUERCUS)

ORANGE (see CITRUS)

OREGON GRAPE (see MAHONIA)

OSMANTHUS ilicifolius—15′ (Zone 6) **Sweet Holly**

Introduced from Japan. Small greenish-white flowers in late summer which are very fragrant. Blue-black berries in fall. Leaves are holly-like and throughout the year are a lustrous dark green. Does well in sun or shade. Stands shearing well. Suitable for specimen or foundation planting and we think it is especially suitable for hedges. An excellent plant.

24 to 30 in. B&B	5.10	4.65	4.20
30 to 36 in. B&B	5.85	5.35	4.90
3 to 4 ft. B&B	7.15	6.50	5.85

OSMANTHUS ilicifolius GULFTIDE—15′ (Zone 6)

A new Osmanthus variety similar to ilicifolius but with curly, deeper green leaves and more compact growth habit. Our experience indicates this to be a far superior selection.

12 to 15 in. B&B	2.75	2.50	2.25
15 to 18 in. B&B	3.60	3.25	2.90
18 to 24 in. B&B	4.20	3.90	3.60

Here is one of our can production areas. Many hard to get and hard to transplant items are available from this block.

Unit Price in Quantities	1-9	10-24	25-more

OXYDENDRON arboreum—30' (Zone 5) **Sour Wood**

One of our best native trees. Flowers in late summer, a time when flowers are welcome. Very striking crimson fall coloring. Grows best in acid soil.

2 to 3 ft. B&B	2.70	2.50	2.25
3 to 4 ft. B&B	3.50	3.20	2.90
4 to 5 ft. B&B	4.70	4.30	3.90

4 to 5 ft. B&B	9.35	8.60	7.80

PICEA excelsa (abies)—80′ (Zone 2) **Norway Spruce**

For many years since its introduction in Colonial times, this variety has been popular as a Christmas tree and as an ornamental.

18 to 24 in. B&B	3.15	2.85	2.60
2 to 3 ft. B&B	4.30	3.90	3.60
3 to 4 ft. B&B	5.50	5.00	4.60
4 to 5 ft. B&B	6.95	6.35	5.85

PIERIS japonica—5′—6′ (Zone 6) **Japanese Andromeda**

Evergreen. Drooping clusters of small, white flowers open in May. A wonderful plant in good demand.

15 to 18 in. B&B	4.75	4.30	3.90
18 to 24 in. B&B	7.10	6.35	5.85
24 to 30 in. B&B	9.40	8.60	7.80

PINE (see PINUS)

PINUS nigra—90′ (Zone 4) **Austrian Pine**

A fast growing, dense, pyramidal tree with wide spreading and rounded top. Has very stiff needles making a splendid specimen. An excellent wind-break or screen. Grows well in either limestone or acid soil, and in city conditions.

18 to 24 in. B&B	3.90	3.55	3.25
2 to 2½ ft. B&B	5.50	5.05	4.60
2½ to 3 ft. B&B	6.95	6.35	5.85
3 to 4 ft. B&B	9.35	8.60	7.80

PINUS strobus—100′ (Zone 4) **White Pine**

One of America's tallest growing, most beautiful, most picturesque evergreen trees. Most important as a timber tree and very widely used as an ornamental.

18 to 24 in. B&B	3.15	2.85	2.60
24 to 30 in. B&B	4.30	3.90	3.60
30 to 36 in. B&B	5.45	5.00	4.60
3 to 4 ft. B&B	7.15	6.50	-----
4 to 5 ft. B&B	8.60	7.80	-----
5 to 6 ft. B&B	11.70	-----	-----

Unit Price in Quantities	1-9	10-24	25-more

PINUS thunbergi—90′ (Zone 4) **Japanese Black Pine**

The best pine, possibly the best evergreen for planting along the seashore. A most hardy and useful tree, with a very irregular and picturesque form when mature.

18 to 24 in. B&B	3.90	3.55	3.25
2 to 2½ ft. B&B	5.50	5.05	4.60
2½ to 3 ft. B&B	6.95	6.35	5.85

PLUM (see PRUNUS)

POPULUS nigra italica—90′ (Zone 3) **Lombardy Poplar**

A native of Europe which has been extensively used as a fast growing screen. Dense columnar growth habit. Easily transplanted and grown.

4 to 5 ft.	.95	.85	.75
5 to 6 ft.	1.40	1.30	1.10
6 to 8 ft.	1.85	1.55	1.40
8 to 10 ft.	2.00	1.90	1.60
10 to 12 ft., 1¼ to 1½ in.	2.35	2.15	1.95

PRIVET (see LIGUSTRUM)

PRUNUS glandulosa rosea—4½′ (Zone 4) **Dwarf Flowering Almond**

Low shrub with numerous, showy pink double flowers effective in early May. Very attractive and popular. An indispensable plant market shrub.

18 to 24 in. B&B	2.35	2.15	-----
2 to 3 ft. B&B	2.65	2.45	-----

PRUNUS laurocerasus officinalis—25′ (Zone 7) **English Laurel**

Native of Southern Europe. Large, glossy Magnolia-like leaves. Small white flowers followed by black berries. Makes a fine large evergreen shrub. Used widely through the south for specimen, foundation, and wind break planting. Strong and vigorous grower.

12 to 18 in. B&B	2.35	2.15	1.95
18 to 24 in. B&B	2.80	2.60	2.25
24 to 30 in. B&B	3.90	3.60	3.25
30 to 36 in. B&B	5.15	4.75	4.20
3 to 4 ft. B&B	6.95	6.35	5.85

PRUNUS laurocerasus schipkaensis—18′ (Zone 6) **Cherry-Laurel**

Smaller, deeper green leaves than above variety. Its somewhat spreading habit makes it more desirable as a foundation plant for low houses. More hardy than P. Officinalis.

12 to 15 in. B&B	2.35	2.15	-----
15 to 18 in. B&B	3.00	2.75	-----
18 to 24 in. B&B	3.90	3.60	-----
24 to 30 in. B&B	5.15	4.75	-----

	Unit Price in Quantities 1-9	10-24	25-more

PRUNUS lusitanica—60' (Zone 7) **Carolina Cherry-Laurel**

A native of Spain and Portugal introduced in Colonial times. Small white flowers, purple fruit. Bronze green leaves. Can be kept sheared for use as shrub or hedge plant or will make an excellent evergreen tree. Rapid grower.

2 to 3 ft. B&B	3.15	2.85	2.60
3 to 4 ft. B&B	5.15	4.75	4.20
4 to 5 ft. B&B	7.45	6.90	6.20
5 to 6 ft. B&B	12.50	11.45	10.40
6 to 8 ft. B&B	19.50	17.55	----

PRUNUS persica rubra—25' (Zone 6) **Red Flowering Peach**

A colorful double flowering tree from China. Very vigorous and is a heavy bloomer as a young plant, hence is unusually popular in the salesyard.

3 to 4 ft. B&B	2.75	2.50	2.25
4 to 5 ft. B&B	3.25	2.90	2.60
5 to 6 ft. B&B	4.70	4.30	3.90

PRUNUS serrulata kwanzan—40' (Zone 5)

Kwanzan Japanese Cherry

Most popular and most hardy of the double flowering Japanese cherries. This variety forms a large part of the Washington Tidal Basin display.

4 to 5 ft.	3.45	3.20	2.85
5 to 6 ft.	4.35	4.00	3.65
6 to 7 ft.	5.90	5.45	5.20
6 to 7 ft., B&B, 1 to 1¼ in.	12.50	11.45	10.40
7 to 8 ft., B&B, 1¼ to 1½ in.	16.90	15.60	14.30
8 to 10 ft., B&B, 1½ to 2 in.	23.60	21.45	19.50

PRUNUS serrulata kwanzan (Tree Form)—20-25' (Zone 5-6)

Oriental Cherry

We offer Kwanzan cherry in tree form, which is especially suitable for use as a street tree. Branches begin 5 to 6 ft. from ground (according to grade). Straight trunks and good tops. Twice transplanted.

6 to 8 ft. B&B 1 to 1¼ in.	12.60	11.40	10.40
8 to 10 ft. B&B 1¼ to 1½ in.	17.30	15.75	14.30
10 to 12 ft. B&B 1½ to 1¾ in.	23.60	21.45	19.50

PRUNUS subhirtella pendula—20' (Zone 5)

Japanese Weeping Cherry

Graceful weeping habit, attractive pink blossoms in spring. Suitable as lawn specimen. Excellent salesyard plant. Branches from the ground up.

3 to 4 ft. B&B	5.20	4.70	4.30
4 to 5 ft. B&B	6.25	5.70	5.20
5 to 6 ft. B&B	7.80	7.15	6.50

Japanese flowering cherries are in demand especially in the Washington D. C. area.

Unit Price in Quantities	1-9	10-24	25-more

PRUNUS thundercloud—12-15' (Zone 4) **Purpleleaf Flowering Plum**

The best of the purpleleaf plums. Rich, purple foliage, single pink flowers. Very hardy, can withstand hot, dry weather.

3 to 4 ft. B&B	3.60	3.30	------
4 to 5 ft. B&B	4.70	4.30	------
5 to 6 ft. B&B	5.95	5.45	------

PYRACANTHA coccinea lalandi—12' (Zone 6) **Laland Firethorn**

An old reliable orange berried firethorn. Always popular and always useful in the landscape design.

12 to 18 in. B&B or cans	2.35	2.15	1.95
18 to 24 in. B&B or cans	3.15	2.85	2.60
2 to 3 ft. B&B or cans	3.90	3.60	3.25
3 to 4 ft. B&B or cans	5.50	5.05	4.60

PYRACANTHA Ingleside crimson—12' (Zone 7)

This Pyracantha is our selection from a number of seedlings and appears to us to be among the best of all red fruiting varieties. Profuse clusters of large red berries which are colorful throughout the fall months. Suitable as foundation and specimen plant and is especially beautiful when in espalier form against a wall, chimney or fence.

12 to 18 in. B&B or cans	2.80	2.60	2.25
18 to 24 in. B&B or cans	3.60	3.30	2.90
2 to 3 ft. B&B or cans	4.35	4.00	3.60
3 to 4 ft. B&B or cans	5.50	5.05	4.60

Q

Unit Price in Quantities 1-9 10-24 25-more

QUERCUS borealis (rubra)—75' (Zone 4) **Northern Red Oak**

Broad, round topped when old, pyramidal when young. Dense, lustrous foliage, attractive red coloring in the autumn. Vigorous grower.

10 to 12 ft. B&B 1½ to 1¾ in.	25.95	23.60	21.45
11 to 13 ft. B&B 1¾ to 2 in.	31.50	28.60	26.00
12 to 14 ft. B&B 2 to 2½ in.	37.40	34.30	31.20

QUERCUS darlingtoni—100' (Zone 7) **Darlington Oak**

Numerous trees of this evergreen oak variety are thriving in the National Arboretum at Washington, D. C. We recommend the planting of evergreen oaks wherever hardy.

4 to 5 ft. B&B	5.15	4.75	4.20
5 to 6 ft. B&B	7.45	6.90	6.20
6 to 8 ft. B&B	10.40	9.40	8.45
7 to 9 ft. B&B, 1 to 1¼ in.	14.10	12.85	11.70
8 to 10 ft. B&B, 1¼ to 1½ in.	19.60	17.85	16.25

QUERCUS palustris—75' (Zone 4) **Pin Oak**

Pyramidal with drooping branches. Dense, fine textured foliage. Scarlet autumn coloring. One of the most picturesque oaks. Upper branches upright, middle branches horizontal and lower branches pendulous, giving the tree a beautiful pyramidal outline.

9 to 11 ft. B&B 1¾ to 2 in.	28.30	25.75	23.40
10 to 12 ft. B&B 2 to 2½ in.	33.00	30.00	27.30
11 to 13 ft. B&B 2½ to 3 in.	42.45	38.60	35.10
12 to 14 ft. B&B 3 to 3½ in.	55.00	50.00	45.50

QUERCUS phellos—100' (Zone 6) **Willow Oak**

An excellent oak variety with narrow willow-like leaves.

4 to 5 ft. B&B	5.15	4.75	4.20
5 to 6 ft. B&B	7.45	6.90	6.20
6 to 8 ft. B&B	10.40	9.40	8.45
7 to 9 ft. B&B, 1 to 1¼ in.	14.10	12.85	11.70
8 to 10 ft. B&B, 1¼ to 1½ in.	23.70	21.45	19.50
9 to 11 ft. B&B, 1½ to 1¾ in.	29.25	26.45	24.00

QUERCUS virginiana—75' (Zone 7) **Live Oak**

The oak variety which is so often associated with the South. A wonderful variety where hardy.

3 to 4 ft. B&B	3.90	3.60	3.25
4 to 5 ft. B&B	5.50	5.00	4.60
5 to 6 ft. B&B	8.00	7.15	6.50

QUINCE (see CYDONIA)

REDBUD (see CERCIS)

Unit Price in Quantities	1-9	10-24	25-more

ROSA wichuraiana—10′ (Zone 6) **Wichurian Rose**

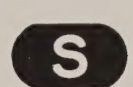
An oriental semi-evergreen rambling rose. White flowers. Strong grower. Especially useful for covering banks and slopes.

12 to 18 in.	.50	.45	.40
18 to 24 in.	.75	.70	.55
2 to 3 ft.	.95	.85	.70

ROSA rugosa—6′ **Rugosa Rose**

Originated in Japan and known there as the "Sea Tomato" because it grows within reach of the salt water spray. Withstands clipping very well and is often used in formal clipped hedges. The flowers are fuchsine-pink to white and bloom in early June, has large conspicuous red fruit in fall. The foliage is rugose, dark green which changes to orange in the autumn. Its extreme vigor and hardiness make it one of the most valued of all rose species for general planting.

12 to 18 in.	.55	.50	.45
18 to 24 in.	.70	.65	.55
2 to 2½ ft.	.95	.85	.70



SALIX babylonica—60′ (Zone 6) **Babylon Weeping Willow**

A Chinese native which has become popular all over the world. Long pendulous branches. One of the first trees to leaf out in the spring. Excellent for waterside planting.

5 to 6 ft. B&B	4.35	4.00	3.60
6 to 8 ft. B&B	6.25	5.70	5.20
8 to 10 ft. B&B	9.35	8.60	7.80
8 to 10 ft. B&B, 1½ to 1¾ in.	14.30	13.00	11.70
9 to 11 ft. B&B, 1¾ to 2 in.	23.40	21.45	19.50
10 to 12 ft. B&B, 2 to 2½ in.	31.20	28.60	26.00

SALIX caprea—27′ (Zone 4) **Goat Willow**

Introduced from Europe in early colonial times. This species is the best of the "Pussy Willows" because it has the largest catkins which appear early in March. A vigorous shrub.

3 to 4 ft. B&B	3.10	2.85	2.60
4 to 5 ft. B&B	3.90	3.55	3.25
5 to 6 ft. B&B	4.70	4.30	3.90

Again we can supply good quality Willow Oaks.

Unit Price in Quantities	1-9	10-24	25-more

SALIX niobe—60′ (Zone 6) **Weeping Golden Willow**

Similar to S. babylonica but has golden bark.

5 to 6 ft. B&B	4.70	4.30	3.90
6 to 8 ft. B&B	6.70	6.20	5.50
8 to 10 ft. B&B	10.90	10.00	9.10
8 to 10 ft. B&B, 1½ to 1¾ in.	15.60	14.30	13.00

SNOWBALL (see VIBURNUM)

SOPHORA japonica—75′ (Zone 4) **Japanese Pagoda Tree**

Flowers in July, white, pea-like in large pyramidal, upright clusters. Foliage dark green and open; leaves compound, similar to those of the locust tree. Common name comes from the fact that it is frequently used around Buddhist Temples in the Orient. Last of the larger trees to bloom in the summer, and so is greatly desired as an ornamental. Thrives under city conditions.

8 to 10 ft. B&B 1½ to 1¾ in.	30.65	27.85	-----
9 to 11 ft. B&B 1¾ to 2 in.	38.50	35.00	-----
10 to 12 ft. B&B 2 to 2½ in.	47.20	42.90	-----

SOUR WOOD (see OXYDENDRON)

Unit Price in Quantities	1-9	10-24	25-more

SPIREA bumalda "Anthony Waterer"—3' (Zone 6) **A. W. Spirea**

Of hybrid origin this variety has become very popular as a low growing foundation shrub. Pink to red flat flower clusters in June.

15 to 18 in. B&B	1.55	1.45	1.30
18 to 24 in. B&B	2.00	1.90	1.70
24 to 30 in. B&B	2.35	2.15	1.95
30 to 36 in. B&B	3.00	2.75	2.50

SPIREA vanhouttei—7' (Zone 5) **Vanhoutte Spirea**

The most popular hybrid Spirea. Graceful arching branches covered with handsome white flowers in May. An excellent shrub and unusually suitable for the spring salesyard.

18 to 24 in. B&B	1.55	1.45	1.30
2 to 3 ft. B&B	2.05	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95

SWEET HOLLY (see OSMANTHUS)

SWEETSHRUB (see CALYCANTHUS)

SYRINGA chinensis—15' (Zone 6) **Chinese Lilac**

A hybrid, originated in France. Purple flowers in May. Strong grower. An excellent addition to the Lilac family.

18 to 24 in. B&B	1.55	1.45	1.30
2 to 3 ft. B&B	2.05	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95
4 to 5 ft. B&B	3.50	3.20	2.90

SYRINGA vulgaris—20' (Zone 4) **Common Purple Lilac**

Native of southeastern Europe which has become the favorite shrub of the northeastern states. Fragrant purple blossoms are beautiful as cut flowers. An unusually popular shrub, useful as a specimen or will make an attractive informal flowering hedge.

18 to 24 in. B&B	2.05	1.90	1.70
2 to 3 ft. B&B	2.35	2.15	1.95
3 to 4 ft. B&B	3.10	2.85	2.60

SYRINGA vulgaris alba—20' (Zone 4) **Common White Lilac**

Similar to above variety in every respect except has white flowers.

18 to 24 in. B&B	2.05	1.90	1.70
2 to 3 ft. B&B	2.35	2.15	1.95
3 to 4 ft. B&B	3.10	2.85	2.60

Unit Price in Quantities	1-9	10-24	25-more

SYRINGA "French Hybrids"—12' (Zone 4) **Hybrid Lilacs**

Unit Price in Quantities	1-9	10-24	25-more

VIBURNUM chenaulti—4-5′ (Zone 5) **Chenault Viburnum**

An excellent semi-evergreen Viburnum with very fragrant, pinkish-white flowers in May. Of same parentage as V. burkwoodi but superior in habit.

18 to 24 in. B&B	3.10	2.85	2.60
2 to 3 ft. B&B	4.30	3.95	3.60
3 to 4 ft. B&B	5.50	5.05	4.60

VIBURNUM rhytidophyllum—12′ (Zone 5) **Leatherleaf Viburnum**

White flowers in flat clusters in May. Bright red berries in August. Wrinkled leathery leaves make an interesting and distinctive appearance. Grows best in rich well drained soil under slightly shady conditions. An unusual large shrub.

12 to 18 in. B&B	2.80	2.60	2.25
18 to 24 in. B&B	3.15	2.85	2.60
24 to 30 in. B&B	3.90	3.60	3.25
30 to 36 in. B&B	5.45	5.00	4.60
3 to 4 ft. B&B	7.80	7.15	6.50
4 to 5 ft. B&B	10.90	10.00	9.10

VIBURNUM theiferum (setigerum)—8-9′ (Zone 5) **Tea Viburnum**

A narrow, upright shrub with flat clusters of white flowers in early July. The clusters of glorious scarlet fruit make this a spectacular fall item. The lustrous leaves of this plant have been used for making tea by the Chinese monks in areas where it is native.

18 to 24 in. B&B	2.90	2.65	2.40
2 to 3 ft. B&B	3.50	3.20	2.90
3 to 4 ft. B&B	4.30	3.95	3.60

VIBURNUM tomentosum—7-8′ (Zone 4) **Double-file Virburnum**

White flowers in June, borne in flat heads. The horizontal branching, handsome foliage and bright berries, appearing in the late summer, make this an indispensable item in all shrub plantings.

18 to 24 in. B&B	2.70	2.50	2.25
2 to 3 ft. B&B	3.35	3.10	2.80
3 to 4 ft. B&B	3.90	3.55	3.25

VIBURNUM tomentosum plicatum—7-8′ (Zone 5)

Japanese Snowball

A handsome shrub having large, snowy white ball-shaped flowers. Horizontal branches give the plant a unique layered appearance. Purple foliage in the autumn. An excellent specimen, worthy of placing in any garden.

12 to 18 in. B&B	2.35	2.15	-----
18 to 24 in. B&B	2.65	2.45	-----
24 to 30 in. B&B	3.10	2.85	-----

A scene from one of our irrigation lakes, which are stocked with large mouth bass.

Unit Price in Quantities	1-9	10-24	25-more

VINCA minor—8'—12' (Zone 5) **Periwinkle or Myrtle**

An excellent evergreen ground cover doing equally well in sun or shade. Its persistent roots assist it in becoming established in all but the poorest soils. An attractive lilac-blue flower appears in mid-April amidst dark lustrous evergreen foliage. This vine is excellent for planting on banks to hold the soil.

2¼ in. pots, well rooted	.24	.22	.20
3 in. pots, well rooted	.30	.28	.26

VITEX macrophylla—6' (Zone 6) **Lilac Chaste Tree**

An excellent summer flowering shrub native to southern Europe. Aromatic leaves. Lilac colored flowers in July and August.

18 to 24 in. B&B	1.55	1.45	1.30
2 to 3 ft. B&B	2.05	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95
4 to 5 ft. B&B	3.10	2.85	2.60

W

WEIGELA Eva Rathke—6' (Zone 5) **Redflowered Weigela**

An old favorite of the Weigelas. Free flowering period. Abundant rich foliage. Spreading upright habit.

18 to 24 in. B&B	1.55	1.45	1.30
2 to 3 ft. B&B	2.05	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95

WEIGELA vaniceki—8′ (Zone 5) **Vanicek Red Weigelia**

Stronger, more upright growth habit than W. Eva Rathke. Larger deeper red flowers. A hybrid of superior merit.

18 to 24 in. B&B	1.55	1.45	1.30
2 to 3 ft. B&B	2.05	1.90	1.70
3 to 4 ft. B&B	2.35	2.15	1.95

WISTERIA floribunda macrobotrys—35-50′ (Zone 4)
Blue Japanese Wisteria

Flowers violet or violet-blue borne in long, drooping racemes in early spring. These plants are grafted from blooming wood.

3 yr. grafts 1 gal. cans	2.10	1.95	1.75

WISTERIA floribunda alba—35-40′ (Zone 4)
White Japanese Wisteria

Fragrant white flowers in long drooping racemes, appear in early spring. Excellent for use on trellis or pergola. Fast growing.

3 yr. grafts 1 gal. cans	2.30	2.10	1.90

WILLOW (see SALIX)

Y

YEW (see TAXUS)

YUCCA glauca—20′ (Zone 4) **Adams Needle**

Thrives in hot, dry situations. The rigid, pointed leaves and large spikes of creamy white flowers make it most conspicuous. Blooms in mid-July. Evergreen. Useful in modern and oriental style landscaping.

9 to 12 in. 4 in. pots	1.15	1.05	.95
12 to 15 in. 1 gal. cans	1.70	1.55	1.40

This is not only a valuable wholesale catalogue containing prices and descriptions of many plant varieties, but is also a useful reference with many helpful planting suggestions. Your Ingleside catalogue deserves a prominent spot on your desk top.

Bareroot Shrubs

We can supply the following varieties of deciduous shrubs during the dormant season only, dug bareroot and tied in bundles of ten. These shrubs have been transplanted, cut back to assure heavy branching, and are two or three years old. See photograph, Page 14.

Buddlea varieties
Deutzia Pride of Rochester
Forsythia Spectabilis
Jasminum Nudiflorum
Lonicera Tartarica Rosea
Philadelphus Coronarius
Spirae Vanhouttei
Syringa Vulgaris
Syringa Chinensis
Tamarix Parviflora
Vitex Macrophylla
Weigela varieties

Size	Ea. Per Ten	Ea. Per 100

2-3 ft. Bareroot	.55	.45
3-4 ft. Bareroot	.70	.60
4-5 ft. Bareroot	.90	.80

PRINCETON NURSERIES

Ingleside Plantation Nurseries is affiliated with the Princeton Nurseries of Princeton, New Jersey. As their southern representative we are in a position to supply your entire requirements from our combined stock, one of the most complete inventories in the trade. Flowering trees of every kind, vines and ground covers, coniferous evergreens, shrubs in wide assortment, and the finest stock of shade trees in the country are ready for your selection. Weekly deliveries to Oak Grove during the busy season assures you of prompt service on even the smallest order. Truck load deliveries to our establishment can be easily arranged.

Write us or phone CApitol 4-2042. Our representative will be glad to call on you.

Conditions of Sale—Prices, Etc.

The prices named in this list cancel all previous lists. They are based on current market conditions and are subject to change without notice.

Terms

Prices: F.O.B. Nursery At Oak Grove, Virginia

To those with an established record for prompt payment or with satisfactory references, we are glad to extend our regular terms of thirty days from date of invoice.

2% DISCOUNT will be allowed for payment in ten days from date of invoice.

Orders for shipment C. O. D. must be accompanied by a remittance for one-third of the amount to insure acceptance. These are our only terms and no salesman or representative is authorized to alter them in any way unless confirmed from the office in writing.

A 1% monthly carrying charge *will be added to account balances that are 60 days old on the 10th of each month,* unless other arrangements for deferred payment have been made and approved by us *in writing* prior to final booking of order.

Claims

All sales are made with the understanding that we shall not be liable in event of crop loss, or of damage from other causes over which we have no control.

We will gladly correct any errors, but WE CANNOT ENTERTAIN ANY CLAIMS THAT ARE NOT MADE WITHIN TEN DAYS AFTER RECEIPT OF THE STOCK OR ARE MADE AFTER THE STOCK HAS ONCE BEEN ACCEPTED. Claims should be made promptly in writing on receipt of stock.

Plants become your property upon delivery to transportation company and we cannot be responsible for loss, damage, or delay in transit.

All orders booked are based on the distinct understanding that the purchaser agrees to the conditions of sales as stated above.

Guarantee of Genuineness

We will send out healthy, thrifty stock, true to name. If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace free of charge such stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said stock.

Delivery

We prefer that you pick up your order with your truck. However, if this is not possible we will make every effort to deliver to you on our trucks or by a public carrier at the time you wish. We try to keep delivery charges as low as possible. These charges are net and due when stock is delivered.

How to Handle Your Plant Material

DELIVERY

We supply only stock that has been freshly dug to fill your order. Orders delivered by Ingleside trucks are promptly loaded and are protected in transit by carefully secured tarpaulins.

Call for your loads as promptly as possible after notification, be sure your truck is equipped with plenty of rope and canvas to cover the whole load. Unprotected nursery stock quickly windburns and dries out in transit.

BAREROOT STOCK

Unload promptly after receipt of material. Untie and water the bundles. Heel at once in peat, sawdust, or moist soil preferably under a lath shade protection. Bareroot stock should be potted up or planted before it starts into active growth.

B&B STOCK

Again unload promptly upon receipt of the material. Remove the cords securing the tops of the plants to prevent injury to the foliage. Heel the balls in damp peat or sawdust preferably under lath shade protection and water thoroughly. In the salesyard B&B material is most advantageously displayed in raised peat or sawdust beds. To save time and confusion during rush periods salesyard stock should be individually labeled as to variety and price. Feed the stock every two to three weeks with soluable fertilizer at ½ the manufacturer's recommended dilution.

Ingleside Planting Suggestions

To assist you in quickly choosing plant material suitable for various conditions and uses we have endeavored to classify into the following groupings the varieties we produce.

You will note that some varieties are recommended for several types of uses. This is achieved through pruning methods. For example, Ilex Opaca and its named female varieties can be kept pruned as a foundation plant, clipped as a hedge or allowed to grow into a tree.

COLORFUL AUTUMN FOLIAGE

Acer palmatum atropurpureum, Red
Acer platanoides, Yellow
Berberis julianae, Red

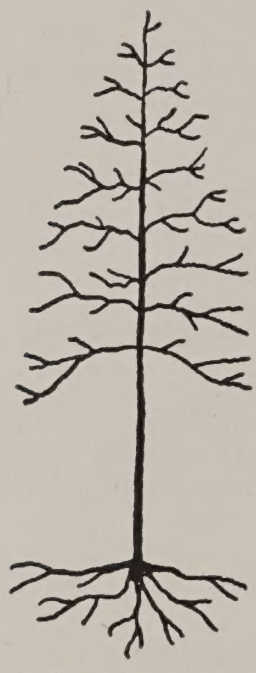
Transplanting Directions

PRUNING

Deciduous trees and shrubs must be properly pruned at planting time. The transplanting of a plant marks a very critical point in its life history, and to neglect proper pruning and planting methods is to invite unsatisfactory results or, indeed, complete loss of the plant material.

In the case of shrubs it is advisable to cut them back from one-half to two-thirds, with but few exceptions. Balled and burlapped evergreens as a general rule need only light pruning and shaping after transplanting. For deciduous trees it is suggested that you closely adhere to the following chart which may appear to be harsh treatment, but which in reality, results in rapid and vigorous growth after transplanting. Cut about one-half off the length of the side branches, and leave the central truck intact to establish a favorable balance of root over top area.



Before Trimming

After Trimming

FERTILIZATION

We recommend that you do not use strong commercial fertilizers at planting time, but do suggest proper applications of a good quality commercial mix be applied the following February after planting and thereafter each year as needed to keep the plant vigorous and healthy. Two to four pounds of 10-6-4 fertilizer per 100 square feet of surface area is a safe rate of application.

PLANTING

Whenever possible plants should be planted in their permanent location immediately upon receipt from the nursery. Wherever possible, it is well to have the holes for planting prepared in advance. We advise November planting, as a general rule, in order to insure

vigorous growth the following growing season. If the soil is poor in the planting area, or if the top soil has been removed through grading, we suggest that the planting holes be made two to three times the size needed and then filled with rich top soil. Most varieties should be planted a little deeper (up to 1½ in.) than they originally stood in the nursery. If the plant is balled and burlapped do not remove the burlap entirely, but do untie the strings from around the stem of the plant and fold back the burlap from the top of the ball after it is placed in the hole. Carefully pack the soil around the plant, tamping it so there are no air pockets. Water thoroughly. Leave a depression or saucer around the plant which should be filled with a good mulch material (peat moss, wood chips, or straw) to hold the moisture.

WATERING

All plants should be carefully watered in at planting time, thereafter a good soaking should be given once a week during the first growing season. It is well to push a trowel or bar into the soil during or after watering, in order to check and make sure the roots are being soaked. When you observe leaves beginning to dry up it is generally, for most varieties, too late to water. The damage has been done. *Be sure to water thoroughly once a week* until the plant is established.

AFTER PLANTING CARE

Be sure and remove all nursery labels and tags. The wire in many of these labels will strangle your plant when it begins to grow.

Newly planted trees over six feet tall, or with heavy tops should be carefully staked to prevent winds from swaying them, and loosening the roots in the soil.

To prevent insect damage see the following spray chart for insect control.

Remember the first season for newly planted material is the most critical.

Schedule of B&B Charges

The following charges are made to cover additional cost of balling and burlapping trees and shrubs that are not listed B&B. The ball sizes, unless otherwise specified, are always dug according to A.A.N. "Horticultural Standards" recommendations.

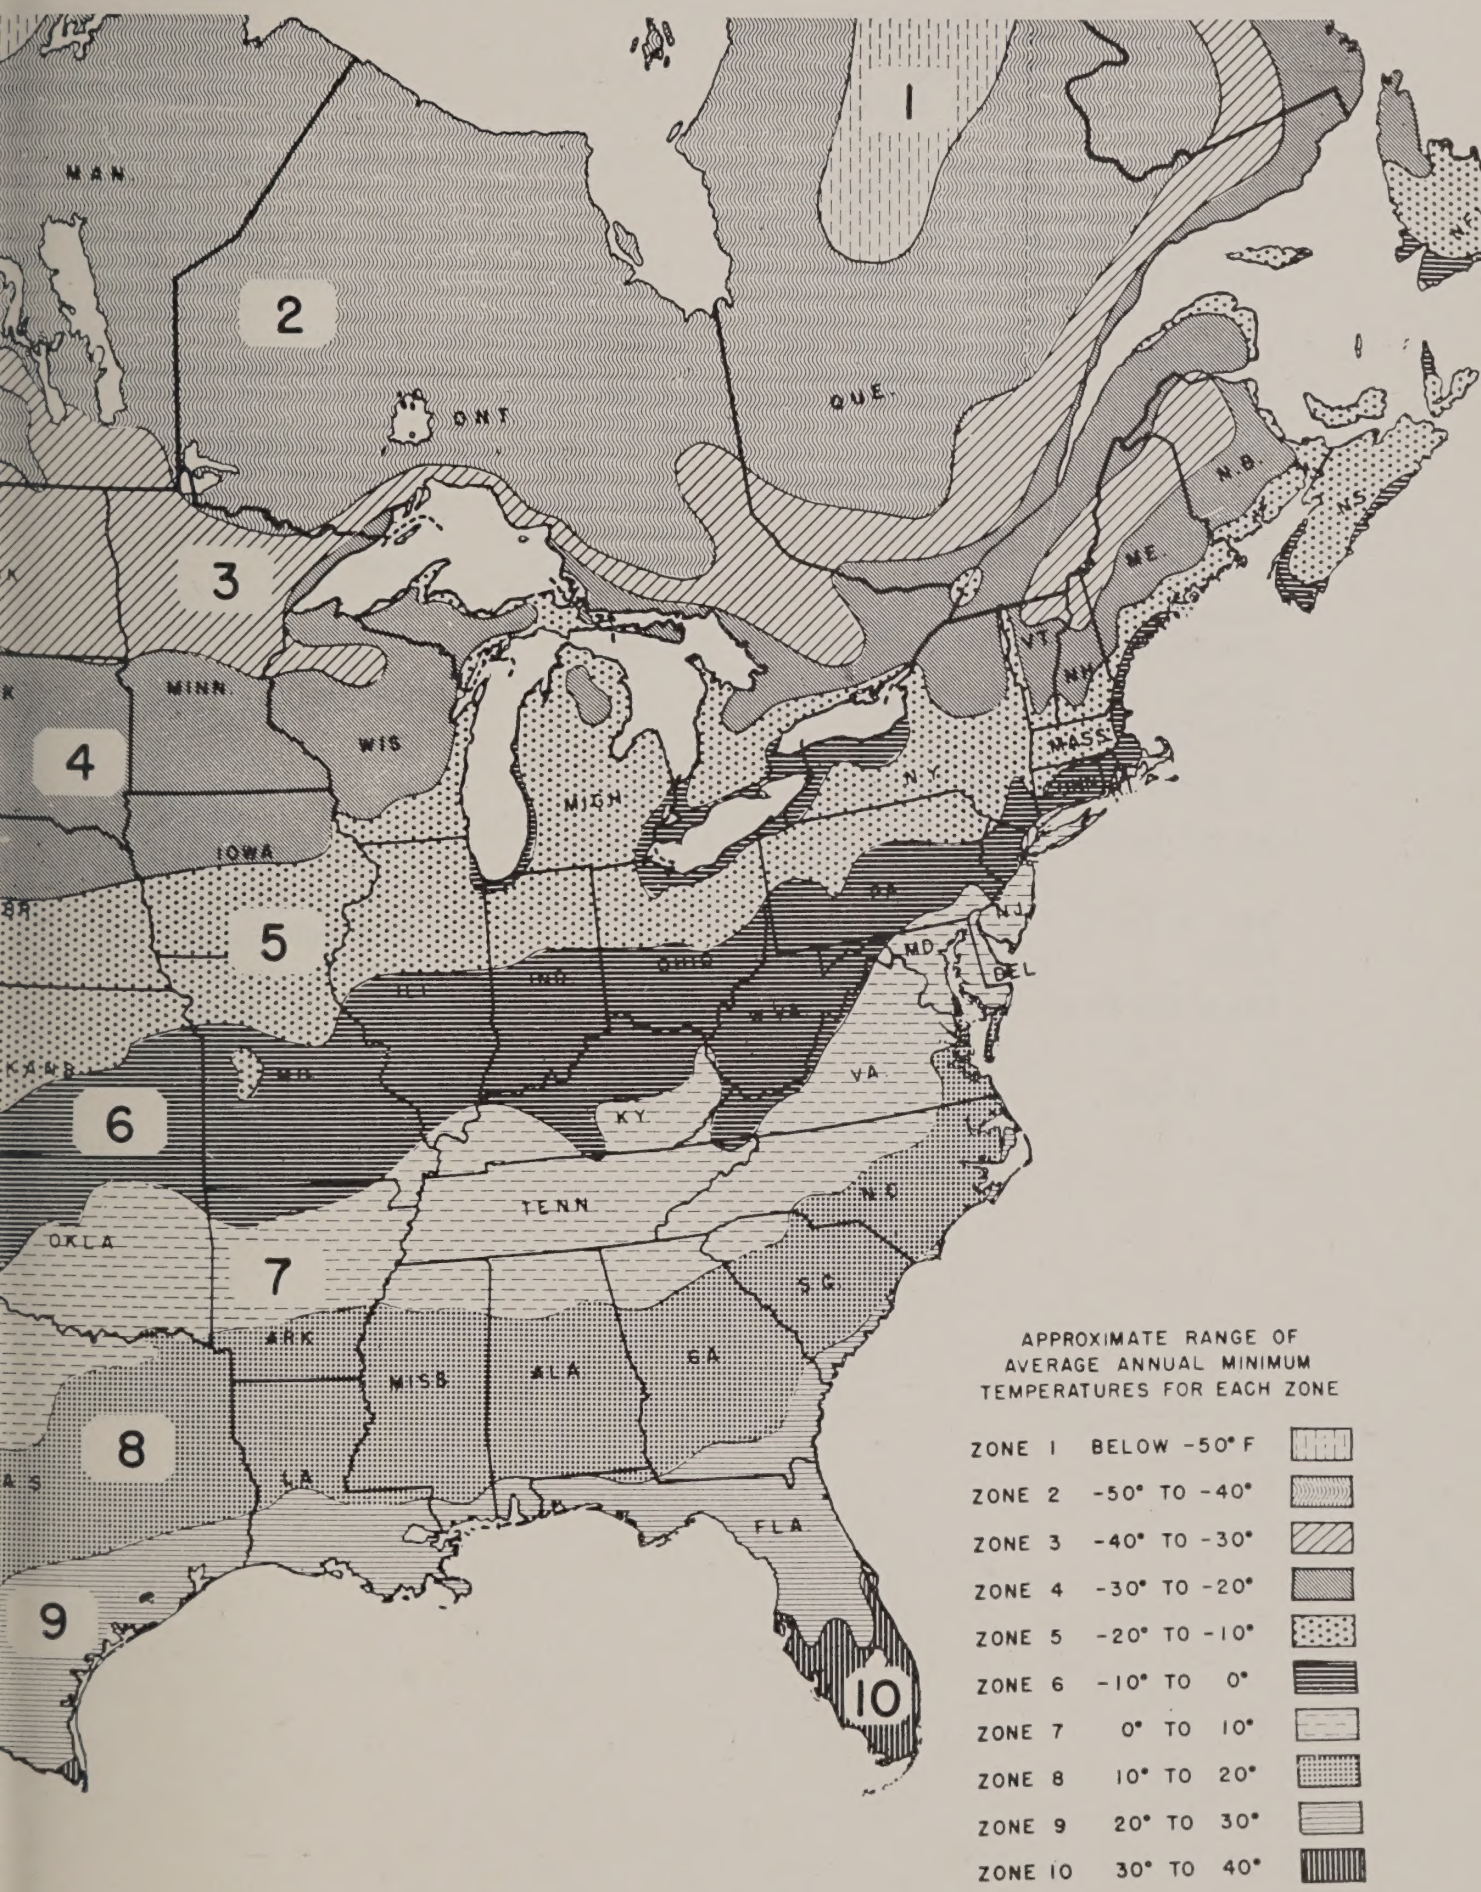
The charges are based on a carefully dug solid ball of earth, laced with rope or wire, and handled according to the best nursery practices.

Size of Plant	Standard Ball Size	Estimated Weight	Charge
15 to 18 in.	9 in.	25 Lbs.	.45
18 to 24 in.	10 in.	30 Lbs.	.50
24 to 30 in.	11 in.	40 Lbs.	.65
30 to 36 in.	12 in.	45 Lbs.	.75
3 to 4 ft.	14 in.	65 Lbs.	1.40
4 to 5 ft.	15 in.	75 Lbs.	1.80
5 to 6 ft.	16 in.	100 Lbs.	2.50
6 to 8 ft.	18 in.	150 Lbs.	3.60
8 to 10 ft.	21 in.	225 Lbs.	5.25
10 to 12 ft. 2″ cal.	24 in.	300 Lbs.	7.20
10 to 12 ft. 2½″ cal.	27 in.	450 Lbs.	10.80
12 to 14 ft. 3″ cal.	30 in.	650 Lbs.	15.00
12 to 14 ft. 3½″ cal.	36 in.	1000 Lbs.	25.00

Zone Map

It has been our policy to continually strive to make our catalogue more helpful and useful. We have included a Zone Map of the Eastern United States. If the plant variety in which you are interested carries your zone number, it should be hardy in your area. The zone number can be found in parenthesis listed beside each variety name.

HARDINESS ZONE MAP OF THE EASTERN UNITED STATES



INGLESIDE'S HANDY CHART FOR INSECT CONTROL

Name of Pest	Insecticide	Hand or Hydraulic Sprayer Formula	Comments
Aphids	Malathion 50% Emulsion	1 to 2 pints	Apply when noticed.
Lace Bugs	Malathion 50% Emulsion	1 to 2 pints	2 sprays 2 to 3 weeks apart.
Leaf Hoppers	DDT 50% Wettable Powder	2 pounds	Repeat if necessary.
Scale Insects—Crawling Stage	Malathion 50% Emulsion	1 quart	First spray in early June. Repeat in 3 weeks.
Scale Insects—Dormant	Superior Type Dormant Oil	3 gallons	Spray only when temp. is above 45° F.
Spider Mites	Malathion 50% Emulsion	1 to 2 pints	Two sprays three weeks apart.
Spider Mites	Other Special Miticides	Manufacturer's Directions	Two sprays three weeks apart.
Canker Worms (Inch Worms)	DDT 50% Wettable Powder	2 pounds	While foliage is young.
All Other Leaf-Eating Caterpillars	Same as for Canker Worms		When noticed.
Bag Worms	Lead Arsenate	4 pounds	Early to middle June.
Japanese Beetle	DDT 50% Wettable Powder	2 pounds	When adults emerge.
Other Leaf-Eating Beetles	Same as for Japanese Beetle		When noticed.
Mimosa Web Worm	Malathion 50% Emulsion	1 quart	When first noticed.
Pine Tip Moth	DDT 50% Wettable Powder	2 pounds	First spray in late April. Repeat in 4 weeks.
